

Come home
to quality windows and doors

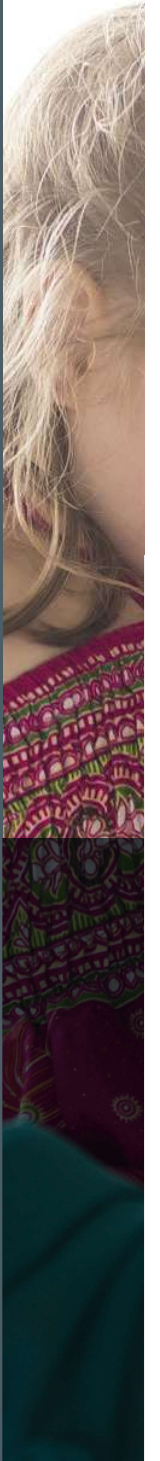

See the **light**

Choosing new windows and doors for your home – or investing in the luxurious extra space of a conservatory – is one of the biggest improvements you can make to your home.

We understand this. It's why we ensure quality is embedded in every stage. From your choice of designs, to the quality of build, to the craftsmanship of the finish. From the ease of ordering, to the expert fitting, to the helpful customer service every step of the way.

From beginning to end, everything we do is designed with one simple end result in mind: your satisfaction. So when making the best decision you can in creating your perfect home, here's everything you need to know about why our windows, doors and conservatories are perfect for your home.

A photograph of a woman with blonde hair, seen from the side, smiling warmly at a young child with blonde hair. The child is wearing a colorful, patterned top and has their hands raised in a playful gesture. They are in a room with a window in the background, through which bright light is streaming. The overall mood is joyful and intimate.

Let the light into your home

Designed to meet the high standards and security that homeowners have come to expect for their homes.

Our window and door products can bring any house to life, from our innovative Refine™ flush sash to our range of high quality composite entrance doors. We aim to inspire any homeowner to find the right product to suit their needs.

Quality your home deserves

Liniar profiles are manufactured using tried and tested methods that will not only keep your home warm and safe, but will ensure you're covered against warping, splitting and discolouration for 10 years.

Multi-chambered
Size-optimised chambers break up mini convection currents locking in pockets of warm air.

Positive drainage
Specially designed profile contours maximise natural drainage and prevent moisture build-up.

Superior gaskets
High performance (patented) double-action 'bubble' gaskets maintain tight weather seals.

Glazing flipper
Unique 'glazing flipper' gasket reduces cold transfer, water ingress and noise pollution.

Integrated reinforcing
Internal structures provide exceptional rigidity while minimising the need for steel reinforcing.

Thermal dam
Designed to Passivhaus recommendations, the thermal dam reduces heat transfer.

Thermal performance

Bringing the outside in

The amount of external light, warmth and noise that your new conservatory or orangery receives is influenced heavily by your choice of roof covering, as well as the glazing in the windows and doors.

Polycarbonate

The intelligent design of polycarbonate sheets attempts to maintain a comfortable room temperature, regardless of the weather outside.

Glass

The crisp and sophisticated finish of a glass roof facilitates a pure outlook and also minimises the noise impact of rain and hail.

Solid Roof

Choosing roofing tiles that match those of the main building will keep your house and extension in-sync and solid roofs can also be used to refurbish an existing orangery or conservatory.

The perfect transition between house and garden, a conservatory is one of the most cost-effective ways to add space to your home.

With a wide selection of styles from modern through to traditional Victorian or Edwardian, and available in a number of colours and finishes, you are sure to find a style that perfectly compliments your home.

Choose your style

There is a wide selection of conservatory styles to choose from – modern bespoke styles to traditional Victorian or Edwardian designs.

Add a splash of colour

To ensure the perfect match, all our uPVC windows are available in a wide choice of colours. Creating the look you want has never been easier.

*Longer lead times required

Complete your style

Triple glazing

We offer the only uPVC window specifically designed for triple glazing. Significantly improving the energy efficiency and sound insulation of your home, triple glazing improves security, reduces noise and retains warmth.

Energy retention

A specifically designed 'flatter' glazing bead accommodates a thicker triple glazed unit which can achieve U-values as low as 0.9 W/m²k.

Noise reduction

A second unit cavity makes sound wave transfer more difficult, providing superior noise reduction.

Personalise your windows

Casement handles

Our casement window handles have a simple push button mechanism which are easy to use.

Tilt & Turn handles

Dual position handles designed to partner your new windows perfectly.

Add some authenticity

Choose the right finishing touches to complement the look of your home.

Astragal Bar

Replicates the look of real wood and gives the illusion of individual panes. Precision milled glazing bars can be positioned where you want to complement the look of your home.

Georgian Bar

Sitting within the sealed glass unit to provide an elegant and refined look, ever-popular Georgian bars add an unmistakable air of sophistication.

Finishing touches

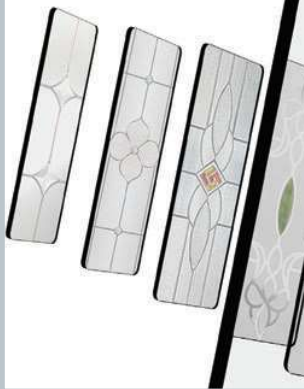

Door colours

We can supply a wide range of finish colours and textures across our entire range of doors to complement your windows.

Glazing

A wide selection of decorative glass to perfectly complement your choice of door.

Whether modern or traditional you will find a glass style to really make your door stand out.

Energy efficiency

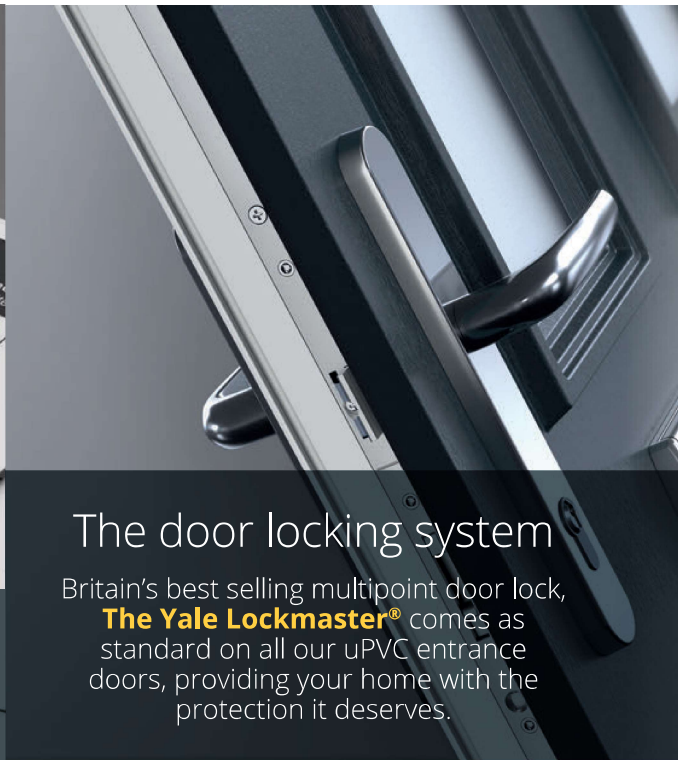

In 2004 Window Energy Ratings (WER) were introduced by the British Fenestration Ratings Council (BFRC) to simplify the method of comparing the energy efficiency of windows.

The energy rating of the window, described as a letter from A (best) to G (worst), is determined by the amount of energy the product will either lose or supply to the property over the course of a year. All of our windows are capable of achieving an **A+14 rating**, the highest level of energy efficiency.

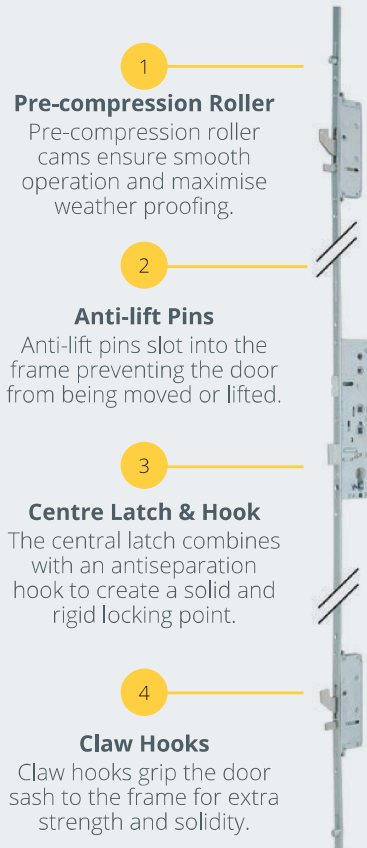

Features and benefits

All of our windows and doors come with the Lincar range of multi-chambered profiles as standard, achieving the highest possible BFRC Energy Ratings in the industry.

The door locking system

Britain's best selling multipoint door lock, **The Yale Lockmaster®** comes as standard on all our uPVC entrance doors, providing your home with the protection it deserves.

Lockmaster

Yale develop intelligent, compact and robust locks, which work perfectly with the design of our windows and doors.

Guarantees

We have such faith in the proven ability of Yale locks that we fully back the company's generous guarantees and warranties.

Security. It's our priority

Why compromise your security and peace of mind? The safeguarding of your home is something we take very seriously. It's the reason why we only trust two of the most recognised and respected names in home security, to supply the locking systems in our window and door products.

Sac

Smart Ready Hardware

The window locking system

The **SAC Shootbolt locking system** has been accredited with Secured by Design police preferred specification, the highest possible level of protection against forced entry.

With 6-point locking, the **SAC shootbolt** provides the ultimate burglar deterrent with up to 300% more contact area than competitor shootbolts.

1

£7,500 Protection Promise

Our shootbolt locking systems are covered by a guarantee of up to £7,500* in the event of a break-in.

2

10 year guarantee

Every shootbolt window locking system has a 10 year guarantee* against mechanical failure.

3

Smart Ready™

Smart Ready™ technology built in as standard, future-proofing your home security.
