A ROOM WITH A VIEW

WENDLAND HAVE BEEN MAKING CONSERVATORY ROOFS SYSTEMS SINCE 1995 AND NOW OFFER A COMPLETE EXTENSION AND ORANGERY SYSTEM TOO. WHATEVER YOUR PLANS ARE FOR EXTENDING YOUR HOME, THERE IS A WENDLAND ROOF SYSTEM THAT WILL PROVIDE THE PERFECT SOLUTION.

Wendland has focused on the quality of their products for over 25 years and their high standards are still what drives them today. The roofing systems can all be used to create living spaces that are cosy, warm and beautiful. Plus, you can make it your own with our range of design options.

AFTER CHOOSING THE WENDLAND ROOF FOR YOUR CONSERVATORY OR EXTENSION YOU NEED TO CHOOSE THE SHAPE OF THE ROOF.

Our Glass Roof, Ultrarroof and Livinroof can all be used on the following conservatory styles:

VICTORIAN

GEORGIAN

LEAN-TO

GABLE

T-SHAPE

1 GLASS ROOF

2 ULTRAROOF

3 LIVINROOF

4 LANTERN

5 FLAT SKYLIGHT

A ROOF FOR EVERY PROJECT

NO MATTER WHAT YOUR PROJECT, THERE IS A WENDLAND ROOF FOR THE JOB.

“THERE’S A RANGE OF OPTIONS, EACH OFFERING THEIR OWN BENEFITS. IT’S WORTH TAKING THE TIME TO CONSIDER WHAT BEST SUITS YOUR HOME – NOT JUST IN TERMS OF COMPLEMENTING THE STYLE, BUT WHICH WILL USE YOUR NEW SPACE IN THE WAY YOU ENVISION.”

MAKE IT YOUR OWN

THERE ARE A VARIETY OF OPTIONS TO CUSTOMISE THE EXTERIOR AND INTERIOR OF YOUR NEW SPACE. HERE WE EXPLORE JUST SOME OF THE WAYS YOU CAN ADD YOUR OWN, UNIQUE FINISHING TOUCHES TO THE FINAL DESIGN.

GLASS OPTIONS

All systems have been designed to flood your home with natural light, while keeping it as warm as possible.

On the Glass Roof, high performance glass not only works hard to ensure the room temperature is comfortable, but it also offers a further chance to add style thanks to our range of colours.

AQUA

BLUE

VELUX

COLOUR

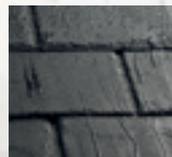

Once you have chosen your style, the next step is to think about colour.

For a glass roof, choose from a range of colours for the bars of your conservatory – these can be different inside and out if you wish. You can choose bars in any colour or select a foiled woodgrain to match window frames if needed.

The lantern is available in standard colours of white and grey or in any RAL Colour.

If you have chosen Ultrarroof, there are 3 tile colours to choose from:

TILE OPTIONS

CARBON GREY

TERRA BRICK

HARVEST BROWN

LIGHTING

You can add lighting to any Wendland roof thanks to the clever internal and external features.

The internal pelmet provides the perfect place for lighting and comes as standard on Livinroof and Ultrarroof and as an upgrade on the Glass Roof.

With Ultrarroof, you can even add patio lights to the outside within the external soffit.

GLASS ROOFS

THE WENDLAND GLASS ROOF IS KNOWN FOR ITS QUALITY AND STRENGTH AND IS A GREAT WAY TO BRING LIGHT INTO YOUR HOME. PLUS, IT CAN BE USED TO CREATE ANY SHAPE OR SIZE OF CONSERVATORY.

Modern glazing improves thermal efficiency, reduces heating costs and ensures you can enjoy your space all year round.

Using the internal pelmet and gutter cover upgrades you can create an orangery which not only looks stunning but feels more like a room from the inside.

The internal pelmet meets the windows, and can be used to house downlights or speakers making the room feel more like an extension.

On the outside, an external gutter cover adds shape and style by hiding the gutters and adding an elegant touch.

The Wendland Glass Roof is available in any colour or a rosewood or golden oak woodgrain foil.

UPGRADE YOUR CONSERVATORY ROOF

WITH ULTRAROOOF, IT TAKES JUST ONE DAY TO REPLACE YOUR OLD CONSERVATORY ROOF, CREATING A ROOM THAT IS BEAUTIFUL AND WARM.

Ultrarroof looks like an extension from inside and outside and is just as energy efficient too, thanks to a U-Value as low as 0.13. Choose from lightweight tiles to match or complement your house or use real slate or tiles if you prefer.

BUILT TO LAST

Upgrading your conservatory roof is a project that demands the very best products for your peace of mind. Every Ultrarroof is designed to withstand the worst possible weather at your postcode. As the lightest tiled conservatory roofing system, Ultrarroof is designed to be used on existing conservatory window frames too.

So not only will your new conservatory look beautiful, you'll know that it's built to last.

THE MODERN WAY TO BUILD AN EXTENSION

Ultrarroof is also the perfect choice for new extensions – it looks amazing, is really warm and is fast to build.

Ultrarroof can be used for any style of extension and will never need a tie bar, so you will always have a high, vaulted ceiling. To bring plenty of light into your new room you can add full length glass panels or Velux windows.

With Ultrarroof, you can install bi-folds up to 4m wide without the need for any extra costly support and it's Building Regulation compliant for total peace of mind.

LivinroofTM

THE BEST OF BOTH

IF YOU'RE STRUGGLING TO CHOOSE BETWEEN A GLASS OR SOLID ROOF, THEN LIVINROOF COULD BE THE IDEAL SOLUTION.

Livinroof combines the best of both with a mix of glazed areas wherever you want them and highly insulated grey panels. It's a great choice for upgrading your old conservatory into a warm, bright new room.

No matter what shape or size your old conservatory is, Livinroof can be used as a roof replacement and will simply sit on top of existing window frames as it's the lightest solid roof on the market at just 31kg/m².

AN EXTENSION WITH A DIFFERENCE

Livinroof is also the ideal roofing option for a new extension with a difference. From the outside it looks just like a modern grey conservatory roof, while on the inside, Livinroof has a beautiful plastered ceiling, just like any other extension.

An internal pelmet upgrade can be added which further adds to the room-like feel on the inside.

Livinroof has a U-Value of 0.16 and is fully fire tested for your peace of mind.

LIVINROOF KEY FEATURES

THE LIGHTEST SOLID ROOF ON THE MARKET AT JUST 31KG/M²

SHAPED GLAZING FOR STUNNING INTERNALS

U-VALUE OF JUST 0.16

FULLY FIRE TESTED

ANY SHAPE, ANY SIZE - EVEN 5° ON LEAN TO

SIMPLE TO INSTALL - LIKE A CONSERVATORY ROOF

LANTERN KEY FEATURES

CLIP-ON FEATURES

HIGH THERMAL PERFORMANCE

RIDGELOCK - PERFECT FIT
EVERY TIME

LESS BARS THAN OTHER
LANTERNS

SIMPLE NEAT DESIGN

NO VISIBLE FIXINGS

DESIGNED WITH MANY THERMAL FEATURES TO HELP STOP CONDENSATION. VERY IMPORTANT IF THE ROOM BELOW IS A KITCHEN.

LANTERN SLIMLINE, NEAT AND BRIGHT

A WENDLAND LANTERN IS A FANTASTIC OPTION FOR BRINGING LIGHT INTO A FLAT ROOF EXTENSION OR ORANGERY. ITS RIDGE IS EXTREMELY STRONG, MEANING THAT THERE ARE FEWER BARS THAN ON ANY OTHER LANTERN ROOF SYSTEM.

This allows for the maximum amount of light to enter the room below and gives the lantern a neat modern look.

Not only do Wendland Lanterns look stylish, they are also designed with many thermal features to help stop condensation. This feature is very important if the room below is to be used as a kitchen where changing heat levels can be a problem.

Clip-fit features and the unique RidgeLOCK mean that Wendland Lanterns are fast to fit and go together perfectly every time.

Available in aluminium (grey, white or black) or PVCu (grey or white) or in any RAL Colour. There is a Wendland Lantern to suit every project. Available in rectangle and square.

HOME**

NOISE REDUCTION HAS BEEN BUILT INTO THE DESIGN OF THE WENDLAND FLAT SKYLIGHT AND CAN **REDUCE SOUND BY UP TO 34dB** ENSURING YOUR ROOM IS PEACEFUL AND QUIET.

FLAT SKYLIGHT ABOVE US ONLY SKY

ANOTHER OPTION TO BRING LIGHT INTO AN EXTENSION OR ORANGERY IS THE WENDLAND FLAT SKYLIGHT.

The unique, simple design features edge-to-edge glass with no visible bars – meaning that when you look up, all you see is glass and the sky above. The Wendland Flat Skylight lends itself to either modern or heritage projects as it is so simple in design and sits equally well in a modern flat roof extension or a more traditional orangery.

Wendland Flat Skylights don't just look great, they are also very advanced in terms of their thermal performance, meaning that they will help to ensure a warm and cosy room below. The U-Value of the flat skylight is just 1.2 and this can be further enhanced by pairing it with the optional insulated kerb. The kerb also helps to avoid condensation, something that is very important in rooms such as kitchens or bathrooms where heat levels can change quickly.

Noise reduction has been built into the design of the Wendland Flat Skylight and can reduce sound by up to 34dB ensuring your room is peaceful and quiet.

Choose from clear or blue performance glass – both options are highly energy efficient to help retain heat in the room below.

KEY FEATURES:

- **Edge-to-edge glass for more light**
- **Ideal for flat roof extensions or orangeries**
- **High thermal performance: U-Value of just 1.2**
